Druid combat rotation (from lvl 10) pass a mana explosion in damage u cure, then switch to animal shape and hit your target(s.) mall does very much damage damage and should be used over SwipeÄ even when fighting 2+ mobs. This is super important. Lvl 10 - 19 : Spec Balance 10/0/0 Here is the order to choose your talents from lvl 10 to lvl 19 (from left to right) Once you hit lvl20, it's time to boost your leveling EXP rate / hours, by using the new cat form. This is useful for switching into your Spirit Set between combat to reduce regeneration downtime. With stealth, high movement speed and a decent single-target damage output, quests will be done fast. If a mob is 1 level higher you will only gain a portion of its base XP reward. XP / Hr Ä Tracker
